TEE

UPVC PIPE

We prefer UPVC pipe for cable laying. Though its costly comparing to PVC, but considering longevity UPVC is wiser to choose.

Customer can choose color. Generally we use white.

SIZE : 3/4 TO ANY

COLOR: WHITE/RED

WALL THICKNESS: 1.3 MM

BRAND: NPOLY/LEERA/RFL/SAJAN

BACK BOX FOR DEVICE BASE

To avoid earth fault, we use customize round mk box for devise bases. Its designed & manufactured by Axis Safety Engineering Ltd.

For different Brand, these boxes are different. Its not required by any third party.

BACK BOX FOR SOUNDER

Made of MS & PVC as well.

Its designed & manufactured by Axis Safety Engineering Ltd.

For different Brand, these boxes are different. Its not required by any third party.

BACK BOX FOR MODULES

Made of MS & PVC as well.
Its designed & manufactured by Axis Safety Engineering Ltd.
For different Brand, these boxes are different. Its not required by any third party.

C-CLUMP

To hang the pipes we use C-Clump instead of saddle.
Fitting & fixing is easier.
